COMMUNITY CONSULTATION MANAGER APPOINTED AT HARBOUR TRUST

The Sydney Harbour Federation Trust has appointed Sally Hamilton as its new community consultation manager.

Ms Hamilton's role will be to provide a direct link between the Harbour Trust and the community, to facilitate the exchange of ideas and to encourage the community to become actively involved in the planning process for Harbour Trust lands.

'I intend to work closely with the Community Advisory Committee and the broader community to gain an understanding of community concerns and expectations with respect to each of the Harbour Trust sites,' Ms Hamilton said.

'The future uses of these harbour foreshore lands represent exciting opportunities for the people of Sydney. I am keen to talk to anyone in the community with an interest in their potential uses.'

Ms Hamilton has extensive experience in the development and implementation of community consultation programs, undertaking and managing environmental planning studies and providing strategic advice on social and environmental issues.
