

# Information Sheet No.2

## The Planning and Assessment Process

All Sydney Harbour Federation Trust buildings are unique and have World, National and Commonwealth heritage significance. Because of their significance, prior written planning approval is required for all works including building fitouts and repairs, landscaping, signage, changes of use and major events prior to the commencement of works.

Visit the SHFT website for application forms and information sheets <http://www.harbourtrust.gov.au/>  
Works undertaken without approval may be removed by SHFT at the applicant's expense.

Contact the SHFT planning team, your Leasing Officer or Property Manager on 8969 2100 for more information.
