

Draft Concept Released

Have your say about the future of North Head Sanctuary

Located at the northern entrance to Sydney Harbour, North Head / Car-rang-gel in Manly is one of Australia's most spectacular landmarks. It has significant ties to First Nations culture and Australia's military history, and hosts some of Australia's most precious natural ecosystems.

In 2020, the Harbour Trust initiated a conversation with the community about their values and aspirations for the future of North Head Sanctuary.

Community aspirations included themes of preservation and conservation for the natural environment, First Nations culture and military history, with enhanced opportunities to learn more about each.

Based on these collective community aspirations, the Harbour Trust has developed a Draft Concept. This proposes a range of signature initiatives that aim to preserve, restore and reinterpret North Head Sanctuary as an invaluable community destination, rich in nature, history and opportunity.

Signature initiatives are centred around the North Fort and Artillery Barracks Precincts, and the protection of the headland as an important bushland sanctuary.
