

'Celebrating the past in the present'

We acknowledge the Cammeraygal People, the Traditional Owners and Custodians of these lands. We pay our respects to Elders, past and present and emerging.

Why the Platypus?

Between 1967 and 1999, the site hosted a submarine base known as HMAS Platypus. The base was named after the Australian mammal, which has a lot in common with submarines. Although platypuses live on land, they forage for food under the water using the electro receptors in their duck bills.
